

Believe your story

Believe what you have been told

(It has been wished to you)

Believe the point of Raven's beak and the intention behind it

Believe Ray

Don't disbelieve the underpinning of the whole thing

Don't believe "that you just made it up."

Believe that it was told you

Take a chance

Do it. Believe it.

An act of belief, belief in the active tense

Belief believed

Trust trusted

Put 2 and 2 together

You are the glue

Turn the equation on

Switch the whole thing into the active tense

It is not doubt that compels you, but life

You are active, not passive

Old answers are not your answers

(yours is not a culture of 'belief')

Live. You. Now. Be. Act.

Be on top of things

Take the initiative

The little empty box with the initiative in it

Use the initiative. Be the initiative
