Prof Wilson Duff.
U.B.C. Vancouver B.C.

dear Professor Duff.

I wrote you not long ago and I failed to keep a copy
I don't recall if I gave you the name of the Master Carver of the Mass.
I know that at one time I thought his name was Skau but have
since had on good authority that the man we were looking
for was Oyai. I think this is correct as I can now recall
in my ten age years hearing stories of this man. I have no
idea of his vantage and so far have found no source of
information. I got this information from a man in P.R. about my age
who was raised by his grandfather & seems to have a good knowledge
of such things. Hope this proves helpful - Sincerely J. Macdonald

I was over to see Bill Reid's display, I found it really
inspiring. The film of Ninetails was also most interesting.

J.
