

TO MOAFROM M. de KewDATE Aug. 16/93 PHONE

This file on ~~Nato~~ population was given to me by Wilson Duff several years before he died. At the time I was preparing something - a lecture perhaps - and asked him a question about population. He replied by giving me the file and saying - "Keep it!" That generous act has served me well a number of times and should serve others in the future.

U's for the MOA archives.
