## Indian Land Question (concl)

1. The National Indian Brotherhood

2. The Red Paper confrontation

Unjust Society

3. Where does this leave the Land Question? - summary

White Paper - it doesn't exist

Indians - primary issue, all across Canada

4. How can it be settled?

a) Legally? Natcha Case is crucial, but won't completely settle anything

1. If Indians wins - aboriginal title is legally alive  
what then?

lose - aboriginal title is not a legal issue  
only decides whether courts have a say (British justice vs law)

b) Claims Commission?

- but if abor. title is still alive, this won't extinguish it

- if abor. title is legally dead, then claim "that lands were taken without agreement & compensation"

c) Treaty No 12?

Either way, a negotiated settlement.

What should the terms of settlement be?
